

Unleash AI Innovation on your Existing Stack

Without Breaking Security, Budgets, or Speed

The Rise of Technical Debt and End-User Workarounds Reflects an Urgent Need:

Faster Insights and **AI Access** than Traditional IT Infrastructure can Deliver

IT Landscape

BI Tools

Agentic AI

Persistent Business Challenges

Slow Insights

Weeks to get answers; Business lags behind

Limited Access to AI

Only technical teams can use predictive tools

Siloed Data & Logic

Insights trapped in tools, teams and formats

Manual Overhead

80% of time spend wrangling data, not analyzing

Risky Work Arounds In Use Today

The lack of timely response from data scientists with BI Tools leads to end user computing hacks that put companies in compliance jeopardy. Risky workarounds like Excel, DAX and Python Notebooks cause data leakage, fragmented logic, regulatory and security issues. **UBIX** provides a data intelligence cloud for AI with a no-code solution for automated insights discovery and content creation.

Excel

Manual, Desktop-Bound, High Risk

Data Leakage

Compliance Risk

Python Notebooks

Unmanaged Code And Compliance Concerns

Security Risk

Version Confusion

DAX

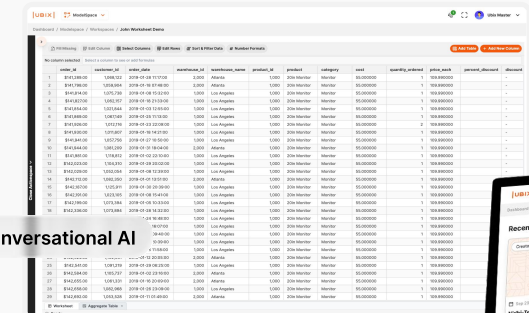

Visual Only, Not Predictive

Data Leakage

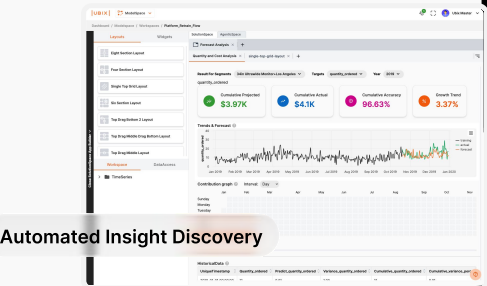

Fragmented Logic

Replace Risky Work Arounds with a Powerful and Secure Capability with **UBIX**:

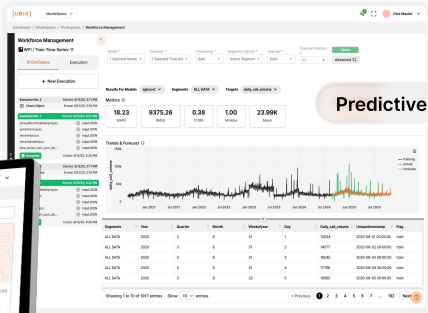

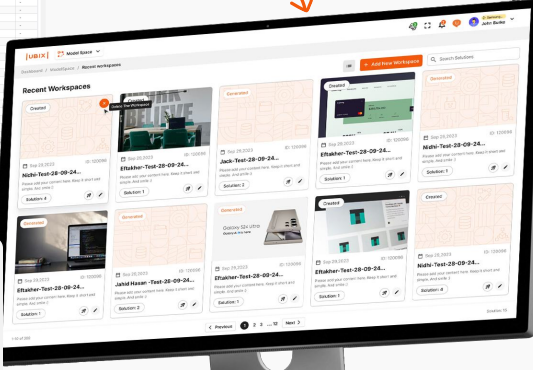

Conversational AI

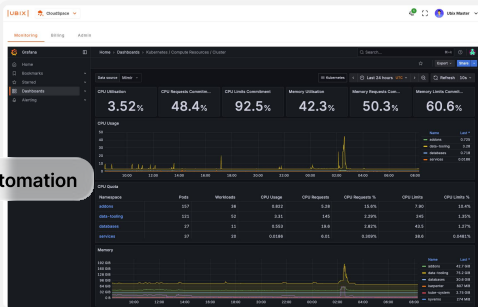

Automated Insight Discovery

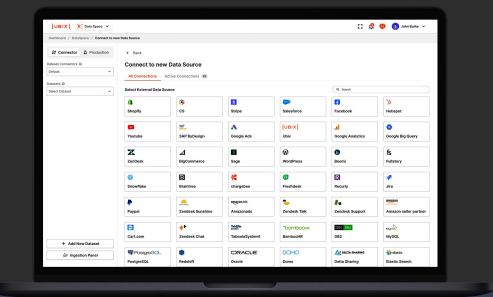

Autonomous Automation

Predictive Forecasting

Every company has a diverse IT infrastructure and UBIX can connect to anything while providing a capability of innovation on top of mainframe, on-prem, and cloud environments. **UBIX** quickly unlocks data silos and creates “Citizen Data Scientists” throughout your organization, setting the foundation for innovation regardless of technical skills, providing true democratization of data and AI.

EVERYONE HAS A DATA PROBLEM

Business (Non-Tech Users)

Finance & HR

Planning, Analysis, Reporting

Sales & Marketing Team

Pipeline, win conversion

Operations (Supply Chain, Contact Centers, etc.)

Needs efficiency dashboards

Technical (Techie Users)

Data Scientists Team

Struggling with messy data prep

IT Team

Managing infrastructure and security

Development Team

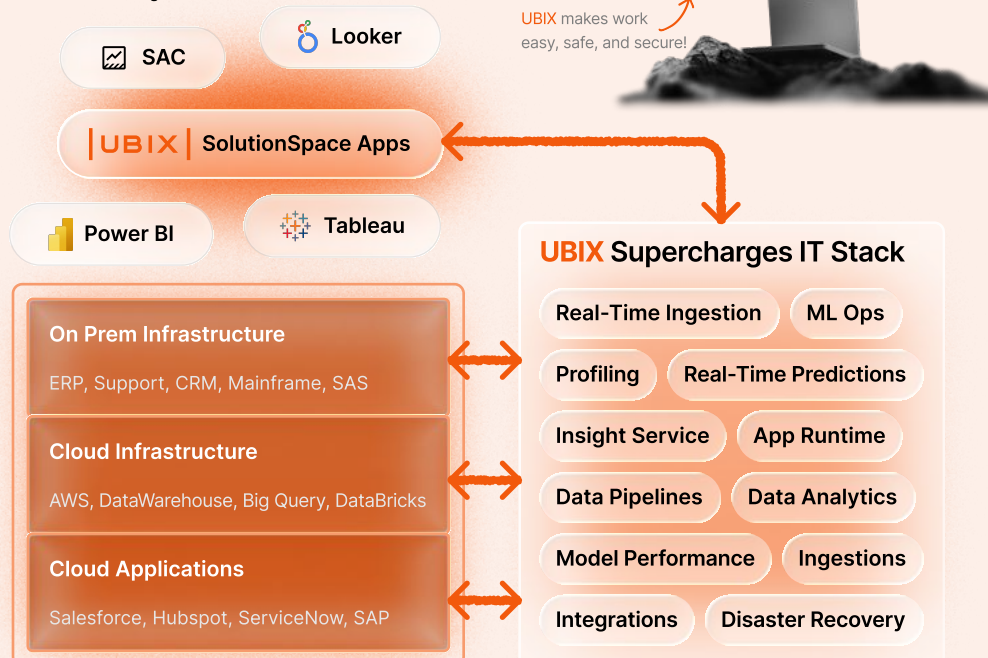

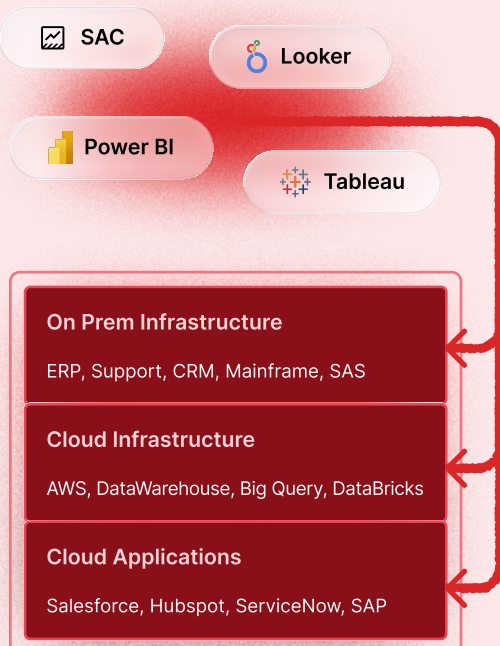

Building endless custom reports

Current IT Challenges Without UBIX

- ❗ Too much manual Data Wrangling
- ❗ Insights trapped in silos
- ❗ Rev & Exp drivers are volatile and difficult to isolate
- ❗ Advanced Forecasting require scarce data science skills
- ❗ Weeks to explain variances or reforecast

IT Infrastructure Powered by **UBIX**

- ✔ Natural Language
- ✔ Automated Insights Discovery
- ✔ Automated Content Creation
- ✔ Predictive Forecasting
- ✔ Workflow Attrition Modeling
- ✔ Turnkey, Infrastructure
- ✔ SaaS Offering
- ✔ Pricing Optimization
- ✔ Statistically Reliable
- ✔ Feature Predictions
- ✔ End-End, No-Code AI
- ✔ GenAI + Machine Learning
- ✔ Cloud Monitorization

HOW **UBIX** SOLVES EVERYTHING IN SINGLE PLACE

Secure, Scalable, AI-Driven

Game Changing Reinforcement Learning and Action Automation
with Autonomous Intelligence

Connectivity
500+ tools so your data isn't stuck

Rapid Deployment
Go from question to outcome in hours, not weeks

Simplicity
No-code analytics, instant insights

Secure Integrations
Connect to your system via APIs

Self-Service AI
Anyone can build and use AI, No-Coding Required

AI Assistant
Ask a question, get an answer—right away

Autonomous Decision Agents
Continuously learn and independently act

Fast Setup
Up and running in 30 minutes

Governed Intelligence
Built-in Privacy and compliance guardrails

UBIK gets results faster than anyone, cost-friendly too!

UBIK, A Pioneer at The Intersection of
Generative AI, Machine Learning, Reinforcement Learning and Agentic AI,

delivers the right data to the right business leader at the right time, improving daily decisions that impact productivity, waste, compliance, growth, and profitability. Our patented No-Code SaaS platform optimizes real-time business decisions without the need for specialized tools and resources by contextualizing and presenting data from inside and outside the enterprise in minutes not days. We modernize AI and ML innovation for digital transformation success enabling business people to directly participate in AI innovation.

With **UBIK**,
business-led AI and Data Democratization can become a reality in days not years on top of what you already have.

No Code. No Risk. No Delays.
